

Fiber Panel Wall Mount Type (LIU)

DIGILINK OptiPlus Fiber Panel is essentially a fiber distribution box wherein the fiber backbone cables and the equipment cables are terminated. The fiber spools provide minimum bending radius and the splice trays function as a splice cover for pigtail splicing.

Product Features & Compliances

- Two Compartment Design - One side Cable, another side pigtails/ Patch Cords.
- Aluminium housing with durable Epoxy powder coating
- Lock and key ensuring safety, avoiding unauthorised tempering.
- Allows minimum two cable entries

Specifications
