

# Copper Crimping Tool

The tools form an essential ingredient for any kit that is required by service personnel. The structured cabling system lays stress on following the practices which will add elegance, discipline, method and reliability to cabling. The tools which are used in installation of a cabling system go a long way in and can sustain extensive use in the field. Modular Crimping Tool can be used to crimp RJ-45 and RJ-11 types of connectors. It is a highly compact and rugged tool and is meant for continuous use in the field. The parallel action design maintains accurate

## Product Features & Compliances

- Termination suitable for 8P, 6P, 4P connectors
- Equipped 8 P RJ-45, 6P RJ-12 & RJ- 11 connectors
- Exceptional material properties & design
- Sure lock blade holder.
- RoHS Compliant
- EIA/TIA 568 A/ B

## Specifications

**Mechanical**

Material: 7.5 inch steel construction body  
 Suitable for 22 – 26 AWG wires  
 Ratchet Mechanism

Note: It is not recommended to terminate 8P8C (RJ 45) Plug on solid cable (Non Stranded conductor) as per EIA/TIA 568 B as well as ISO/IEC 11080 Standard.
